The term “cataract” refers to a cloudy lens within the eye. When a cataract is removed, it is replaced with an artificial lens. Some clear lenses that have not yet developed cataracts are removed to reduce or eliminate the need for glasses. If surgery is appropriate for you, this questionnaire will help us provide the best treatment for your visual needs. It is important to understand that many patients still need glasses for some activities after surgery. Please fill this form out completely. If you have questions, please let us know and we will assist you with this form.

1. After surgery, would you be interested in seeing well without glasses in the following situations?
   - **Distance Vision** (driving, golf, tennis, other sports, watching TV)
     ___ I prefer no Distance glasses  ___ I wouldn’t mind wearing Distance glasses
   - **Mid-range Vision** (computer menus, price tags, cooking, board games, items on shelf)
     ___ I prefer no Mid-range glasses  ___ I wouldn’t mind wearing Mid-range glasses
   - **Near Vision** (reading books, smartphones, tablets, e-readers, sewing, detailed handwork)
     ___ I prefer no Near glasses  ___ I wouldn’t mind reading Near glasses

2. Please check the single statement that best describes you in terms of night vision:
   ___ a. Night vision is extremely important to me, and I require the best possible quality night vision.
   ___ b. I want to be able to drive comfortably at night, but I would tolerate some slight imperfections.
   ___ c. Night vision is not particularly important to me.

3. If you had to wear glasses after surgery for one activity, for which activity would you be most willing to use glasses?
   ___ Distance Vision  ___ Mid-Range Vision  ___ Near Vision

4. Some people prefer to hold their reading material very close, while others prefer holding their reading material much farther away, in their laps. The length of this sheet of paper from top to bottom is 11 inches. Using this sheet of paper as a very rough ruler, try to estimate approximately how far from your face you prefer to hold your reading material. Please place an “X” on the following scale to provide a very rough estimate as best as you can:

   11 inches ------------------------------------------16.5 inches------------------------------------------22 inches
   (1 paper length)  (1.5 paper lengths)  (2 paper lengths)

5. If you could have good Distance, Mid-range, and Near Vision all without glasses, but the compromise was that you might see some halos, rings, or starbursts around lights at night, would you like that option?
   ___ Yes  ___ No

6. If you could have good Distance, and Mid-range Vision without glasses, but the compromise was that you might need glasses for the finest print at near, would you like that option?
   ___ Yes  ___ No

7. If you have a cataract and would like to reduce or eliminate the need for glasses, insurance may cover a significant portion of your overall procedure cost. Would you be interested in learning more about this option?
   ___ Yes  ___ No  ___ Maybe, depending on how much is covered by my insurance

8. Please place an “X” on the following scale to describe your personality as best as you can:

   [---------------------------------------------------------------[---------------------------------------------------------------]
   Easy Going  Perfectionist
